

# AutoMobile™

A PDA based field phlebotomy solution

**NeTUMS** is pleased to announce a brand new addition to our fully integrated **Autolims™** product suite; **AutoMobile™**, which revolutionizes the world of on-the-road and in hospital phlebotomy. With our PDA based system remote access allows phlebotomists to be notified in real time of requisitions to be drawn, perform positive patient ID, sample drop-off locations, and much more. Using cell phone connectivity or wireless networks, all bi-directional updates are logged into the system allowing lab managers a new level of control, promising lab clients a new level of service.

## FEATURES

- PDA based.
- Phlebotomists notified in real time of requisitions to be drawn.
- System performs positive patient ID.
- Identifies sample drop-off locations.
- Bi-directional updates are logged into the system.

## BENEFITS

- Portability.
- Real time data.
- Prevents sample mix-up.
- Sample stability.
- Better control of process.
- Innovative new level of service.
